Re: Duquesne Light Company – Results for the September 2020 Request for Proposals

Dear Mr. Peoples:

On September 22, 2020 CRA International, Inc. d/b/a Charles River Associates filed Duquesne Light Company's (DLC) results of its DSP VIII procurement process and rules for the September 2020 Solicitation for DLC's default service customers. The filing includes bid results for Full Requirements RFP for the supply for residential, small commercial & industrial (C&I), and medium C&I customers who will receive default service from DLC within the period December 1, 2020 through November 30, 2021. All products were procured via the declining clock auction format.

This filing was submitted in accordance with the RFP Process and Rules that were approved by the Commission's Order, entered December 22, 2016 and modified on July 16, 2020.¹ The July Order approved a modification of DLC's procurement schedule for Default Service Plan VIII for the period June 1, 2017, through May 31, 2021. Due to a delay in the PJM Base Residual Auctions, the 24-month products originally scheduled to be included in the September 2020 auction have been changed to 12-month delivery periods. DLC requests that the Commission approve the bid results of the September 2020 Solicitation on or before September 23, 2020.

Further investigation does not appear to be warranted at this time, since the results of the September 2020 Solicitation appear to have been conducted in accordance with the RFP Process and Rules as approved by the Commission.

Therefore, we direct DLC to disclose the results of this September 2020 Solicitation in accordance with the Commission's Secretarial Letter in Re: Disclosure of Default Service Solicitation Results and Creation of a Default Service Rate Calculation Model, issued October 12, 2010 at Docket No. M-2009-2082042.

Please direct any questions to Debra Backer, Energy Supervisor, Bureau of Technical Utility Services, at (717) 783-9787.

Sincerely,

Rosemary Chiavetta
Secretary

¹ See Order adopted on July 16, 2020, at Docket No. P-2016-2543140.
